

# YP SERIES MANUAL TABLET PRESS

## YP-8T tablet press

**Pressure range:** Header 20MPa reaches a pressure of 8 tons  
(Safety pressure range 0-10 tons)

**Piston stroke:** 0-20mm (Limit not exceeding 30mm)

**Piston diameter:**  $\Phi$ 70mm

**Workbench diameter:**  $\Phi$ 88mm

**Work place:** 100mmX100mmX120mm

**External dimensions:** 210mmX190mmX400mm

**Pressure stability:**  $\leq$ 0.5MPa/5min

**Weight:** 19KG

*Bidirectional boost efficiency is higher, independent module  
after-sales worry free, optional protective plate*

## YP-15T tablet press

**Pressure range:** Header 25MPa reaches a pressure of 15 tons  
(Safety pressure range 0-18 tons)

**Piston stroke:** 0-20mm (Limit not exceeding 30mm)

**Piston diameter:** 87mm

**Workbench diameter:** 110mm

**Work place:** 140mmX140mmX150mm

**External dimensions:** 210mmX210mmX460mm

**Pressure stability:**  $\leq$ 0.5MPa/5min

**Weight:** 32KG

*Bidirectional boost efficiency is higher, independent module  
after-sales worry free, optional protective plate*

## YP-24T tablet press

**Pressure range:** Header 30MPa reaches a pressure of 24 tons  
(Safety pressure range 0-28 tons)

**Piston stroke:** 0-30mm (Limit not exceeding 40mm)

**Piston diameter:** 100mm

**Workbench diameter:** 118mm

**Work place:** 110mmX110mmX150mm

**External dimensions:** 220mmX210mmX460mm

**Pressure stability:**  $\leq$ 0.5MPa/5min

**Weight:** 36KG

*Bidirectional boost efficiency is higher, independent module  
after-sales worry free, optional protective plate*

## YP-30T tablet press

**Pressure range:** Header 30MPa reaches a pressure of 30 tons  
(Safety pressure range 0-35 tons)

**Piston stroke:** 0-30mm (Limit not exceeding 40mm)

**Piston diameter:** 110mm

**Workbench diameter:** 138mm

**Work place:** 156mmX160mmX170mm

**External dimensions:** 240mmX210mmX490mm

**Pressure stability:**  $\leq$ 0.5MPa/5min

**Weight:** 48KG

*Bidirectional boost efficiency is higher, independent module  
after-sales worry free, optional protective plate*

## YP-40T tablet press

**Pressure range:** Header 31MPa reaches a pressure of 40 tons  
(Safety pressure range 0-47 tons)

**Piston stroke:** 0-50mm

**Piston diameter:** 128mm

**Workbench diameter:** 160mm

**Work place:** 180mmX160mmX230mm

**External dimensions:** 270mmX220mmX580mm

**Pressure stability:**  $\leq$ 0.5MPa/5min

**Weight:** 80KG

*Bidirectional boost efficiency is higher, independent module  
after-sales worry free, optional protective plate*

## YP-60T tablet press

**Pressure range:** Header 30MPa reaches a pressure of 60 tons  
(Safety pressure range 0-70 tons)

**Piston stroke:** 0-50mm

**Piston diameter:** 156mm

**Workbench diameter:** 190mm

**Work place:** 220mmX180mmX280mm

**External dimensions:** 330mmX240mmX638mm

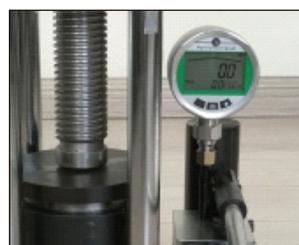

**Pressure stability:**  $\leq$ 0.5MPa/5min

**Weight:** 120KG

*Bidirectional boost efficiency is higher, independent module  
after-sales worry free, optional protective plate*

**Dual scale header  
(MPa/Ton) for more  
intuitive display**

There are also (digital) LCD models available for selection, and the M2 digital meter can directly display the tonnage with a more accurate resolution of 0.01 ton. Suitable for customers who require higher pressure accuracy and more convenient readings.
